

Motion Sound Volume 1

Reference Guide

MotionSound.io

What's inside?

Motion Sound Volume 1 (**2450+** Sounds) is a library of original, audio files separated into three distinct categories: Digital, Life & Essentials. Each category was created to meet a unique need.

Designed by a team of world class foley artists and motion design professionals, Motion Sound has been organized for ease of use with variations in each sound concept for full customization ability.

Motion Sound Volume 1 offers motion designers the chance to take their visual works to greater heights, with robust, high quality sound design concepts.

3 Categories

Digital -

(**650+** Sounds) The sounds of the digital revolution with concepts like; processing, data streams & computing.

Life -

(**1050+** Sounds) Everyday objects and sounds like keys jangling, mouse clicks & money.

Essentials -

(**750+** Sounds) Everything you need to texture the movement on screen, like; wooshes, rotations & turning.

Digital

Alarms

A moment of panic or an indication of a processing error. For when things goes haywire.

- Computer Alarms*
- Factory Alarms*

Computing

Processing, data flow, and original sequences. Implying the inner workings of a computer.

- Computing / Processing*
- Power Up / Down*
- Readouts*
- Robot Chatter*
- Start Up Chimes*
- Transmissions*

Cute Bleeps

Bleep sounds with a decidedly cute tone. Great for a variety of moments. Over 25 variants.

Woosh

Sounds for a digital vibe in transitions and pass by's. Over 70 variations to choose from.

- Dry*
- Dynamic Trail*
- High*
- Low*
- Race By*

Digital

- Standard*
- Stutter*
- Warped*

Errors

Series of notifications and messages for when there is an error.

- Basic*
- Spoken*
- High Pitch*
- Machine Error*
- Special Concepts*

Laser Beam

A variety of laser beam concepts, from fast zips, to slow build ups.

Power Up & Down

A series of sound effects for tech powering up and powering down.

- Digital Fill Up*
- Power Down*
- Power Up*

Readouts

These variants will give you a large library of computer readout sounds.

Digital

Rise & Fall

A series of sounds that climb up and slide down the spectrum of pitch and sound.

Risers

- *Basic*
- *Bubble*
- *Click*
- *Power Up*
- *Quick*
- *Sweep Up*
- *Wobbly*

Falls

- *Basic*
- *Bouncing Decay*
- *Bubbly*
- *Dynamic*
- *Wobbly*

Robot Chatter

A series of sounds for bots chattering. A great set for any moment with a bot communicating.

Static/Glitch

A series of concepts around static noise or moments of glitch.

- Buzzing Static Spikes*
- Censorship Tones*

Digital

- FM Glitch*
- Glitch Static*
- Ground lift Static Spike*
- Static Burst*
- Static Loops*

Subdrops

Drop that sub. An open-ended series of subdrops with a variety of uses.

Transmission

A series of transmission sounds that will serve you well for any moment of sending data or digital signals.

UI Concepts

Press in, release. Button interactions in a variety of tones. Error buttons as well.

- Bendy Buttons*
- Blue Bleep Clicks*
- Dolphin Buttons*
- Green Buttons*
- High Bleeps*
- Pinecone Buttons*
- Pop Up Notifications*
- Readout Notifications*
- Sepia Buttons*
- Supplemental Notifications*

Digital

To make requests for sounds you'd like to see in the Digital Pack V2, please email us at Mail@MotionSound.io with the subject line, "Sound Idea - Digital V2"

We will do our best to accommodate updates for future packs.

Life

Balls

A standard of any sound effects library. Bouncing ball concepts are sure to come in handy.

Bells

Walking into that storefront retail, that little shop door bell rings to welcome you in.

Camera

These sounds will hearken back to the bulb and film style cameras, as well as newer digital cameras.

- Camera Flash*
- Digital Camera*

Cards

The sounds of cards being shuffled, dealt and played.

- Flip*
- Shuffle*
- Set Down*

Clocks

This series of sounds will give you a wide array of clock sounds from a clock tower to the ticking of a stopwatch.

- Basic Tick Tock*
- Countdowns*
- Standard Clock*
- Stopwatch*
- Timers*
- Travel Alarm Clock*

Life

Computer

This will contain physical interactions with a computer.
Mouse clicks and keyboard typing.

- Mouse*
- Typing*

Dice

The sounds of dice being rolled, dropped and picked-up.

- Dice Roll*
- Pick-Up*

Elements

Series of basic elements covering a wide range of materials and moments.

- Cardboard*
- Electricity*
- Glass*
- Metal*
- Paper*
- Plastic*
- Tape*
- Water*
- Wood*

Projector

A series of sounds of a Film projector firing up and running.

Life

Keys

Classic sounds of keys being used in different ways.

- Jangle*
- Shuffle*
- Walking*

Marbles

The simple fun of marbles is matched by the simple clanging sounds they make.

- Bounce*
- Pour*
- Shuffle*

Matches

Concepts involving those little, wooden fire starters.

- Match Strikes*
- Matchbox Shake*

Money

We've covered every possible aspect of money, from paper cash to loose change.

- Cash Register*
- Coin Money*
- Paper Money*

Life

Scissors

A series of moments involving metal scissors.

- Cut Paper*
- Snip*
- Snip Sequences*

Signs / Flag Banner

We've got the essentials of both metal and neon signs represented here. As well as flags and banners unfurling.

- Banner*
- Flags*
- Metal Sign*
- Neon Sign*

Writing

A series of writing moments with different mediums.

- Ball Point Pen*
- Chalkboard*
- Erase*
- Magic Marker*
- Pencil*
- Typewriter*

Life

To make requests for sounds you'd like to see in the Life Pack V2, please email us at Mail@MotionSound.io with the subject line, "Sound Idea - Life V2"

We will do our best to accommodate updates for future packs.

Essentials

Accents

For those moments of breakthrough and emphasis. Accents will help you add interest to special moments.

- Boing*
- Choir*
- Dings*
- Emoticons*
- Splash*

Appear/ Disappear

Moments when things appear on screen, as well as disappear.

- Bite*
- Break / Shatter*
- Flip On Screen*
- Magical*
- Pops*
- Special*

Data Increase / Decrease

These sounds will help you accent the up and down of data. Also relevant in more broad uses.

- Fall*
- Rise*

Essentials

Impacts

Sounds of impact with a variety of tones and objects.

- Clapper Board*
- Dirt*
- Punch & Smack*
- Rubber Stamp*
- Splats*
- Thunk*

Movement

- Fall*
- Slide Whistle*
- Slides*

POV Pan -

This unique series was intended to help create atmosphere around camera moves. These creative concepts can be blended in subtly to help add texture to moments of camera movement or perspective shift.

- Lateral*
- Move Down*
- Pan Down*
- Pan Up*
- Rise*

Essentials

Rummage

Moments on handling and tearing. Things dumping out or being torn.

- Dump Out*
- Fast*
- Long*
- Medium*
- Short*

Shake

A small category focusing on a metallic shake. Good for special use cases.

Shine / Shimmer / Gleam

Series of sounds within the shine family. Great for moments of highlight or emphasis.

- Shine*
- Shimmer*
- Gleam*

Stretch / Grow / Inflate

A series of sounds around growth, expansion or stretch.

- Deflate*
- Inflate*
- Plant Grow*
- Stretch*
- Shrink*

Essentials

Time

A few concepts around time or moving time backwards.

- Record Scratch*
- Rewind*

Transitions

Getting from one moment to the next is about more than just wooshes. These transition concepts help mix it up.

- Abstract*
- Ramps*
- Zoom In / Out*

Turning -

Sounds that will find great use for moments of rotation. Also more literal moments of gears turning.

- Gears Turning*
- Knob Turning*
- Ratchet Turn*
- Spinning*
- Wind Up*

Essentials

Wooshes -

Over 125 different wooshes, this should meet all your woosh needs for years to come.

- Basic Woosh*
 - *Long*
 - *Medium*
 - *Short*
- Classic Woosh*
- Designed Woosh*
 - *Cloth*
 - *Counter Slide*
 - *Flutter*
 - *Long*
 - *Medium*
 - *Mouth Woosh*
 - *Paper*
 - *Short*

Essentials

To make requests for sounds you'd like to see in the Essentials Pack V2, please email us at Mail@MotionSound.io with the subject line, "Sound Idea - Essentials V2"

We will do our best to accommodate updates for future packs.

Motion Sound - Multi-Use License

This is a legal document. Please read carefully.

The terms of this Multi-Use License which applies to Motion Sound, Sound Effects Packs. Read this license to learn about the terms that apply.

What This Multi-Use License DOES Grant :

i. The SFX (Multi-Use) License grants you, the purchaser, an ongoing, non-exclusive, commercial, worldwide license to make use of the sound effects, on the following terms.

ii. You are licensed to use the Item to create multiple End Products that incorporate the Item as well as other things, so that each End Product is larger in scope and different in nature than the Item.

Examples of End Products: apps, games, podcasts, websites, live performances, videos, DVDs, films, TV shows and advertisements.

iii. The license includes the right to utilize the Item through communication to the public (performance), broadcast, display, distribution, and reproduction. Read on for things that you can't do with the Item.

Free or commercial, monetized or not, for-profit or not-for-profit – you can create as many End Products as you like!

iv. You can create End Products for yourself or for your clients. If you create an End Product for a client, then this license is sub-licensed to your client only for use in that specific End Product.

This means that your client can use the Item within the End Product on these license terms. But your client cannot extract or use the Item separate from the End Product!

Motion Sound - Multi-Use License

You are responsible for making sure that your client is aware of this, and these license terms.

v. You can make any number of copies of each End Product. You can distribute an End Product through multiple media, and you can broadcast it or make it available online to an unlimited number of viewers.

vi. You can modify or manipulate the Item, or combine the Item with other works, to suit each End Product. The resulting works based on the Item are subject to the terms of this license. You cannot claim ownership to the Item, whether it's in original form or altered under this clause. You can do the things allowed in this clause as long as each End Product you then create is one that's permitted under clause 2.

Examples: you can edit or loop or stretch a sound effect to suit your project.

What This Multi-Use License DOES NOT Grant :

vii. You can't re-distribute the Item as a sound effect, as stock, in a tool or template, or with source files. You can't do this with an Item either on its own or bundled with other items, even if you modify the Item. You also can't re-distribute the Item as-is or with superficial modifications.

Examples: You can't license a number of sound effects and distribute/resell them on CD or as part of an SFX pack or sample library. You can't license a sound effect and distribute/resell it as a ring tone.

viii. You can't use the Item in any application allowing an end user to customize a digital or physical product to their specific needs, such as an "on demand", "made to order" or "build it yourself" application. You can use the Item in this way only if you purchase a separate single-use license for each final product incorporating the Item

Motion Sound - Multi-Use License

purchase a separate single-use license for each final product incorporating the Item that is created using the application. This multi-use license is not intended for this type of use.

Examples of “on demand”, “made to order” or “build it yourself” applications: online video or animation rendering services, “create your own” slide show apps, and e-card generators. You would need one single-use license for each product.

ix. You must not permit an end user to extract the Item and use it separately from an End Product.

x. You can't claim trademark or service mark rights over the Item within an End Product.

xi. You can only use the Item for lawful purposes. Also, you can't use Item in connection with defamatory, obscene or demeaning material.

xii. You must not use the Item in violation of any export laws that apply to you.

xiv. This license can be terminated if you breach it and don't remedy the breach. If termination happens, you must stop using the Item, which includes no longer making copies of or distributing End Products until you remove the Item from them. This license can also be terminated for only the End Products to which a breach relates (rather than all End Products). In this case, this clause applies only to those End Products.

xv. The author of the Item retains ownership of the Item but grants you the license on these terms.

Example: if you use a sound effect in your video, you can't claim rights to the sound effect (eg through applying “ContentID” or similar systems to the audio).

Motion Sound - Multi-Use License

For any confusion or questions about this broad, multi-use license, please email
